

COMPANY

Native American Owned

HiLine Nation is a California Public Utility Commission (CPUC) certified Minority Business Enterprise (MBE) that specializes in transmission line related services, including: inspections, quality assurance, conductor sagging, and more. We employ and further train career Journeyman Linemen to ensure customer projects are always in fully capable hands. Between our decades of experience and innovative use of advanced technology, we can offer customers a higher grade of specialized services with very accurate measurements, data collection & reporting.
